Research to Practice in Occupational Health Nursing

1. NORA stands for:
   A. National Organization for Research Assistants.
   B. New Order for Researchable Actions.
   C. National Occupational Research Agenda.
   D. Nursing Oversight of Research Aims.

2. Occupational health nurse researchers have been recognized by the American Association of Occupational Health Nurses, Inc.:
   A. For the past 5 years.
   B. For the past 10 years.
   C. For the past two decades.
   D. For the past four decades.

3. A higher percentage of all U.S. nurses hold a bachelor’s degree compared to occupational health nurses.
   A. True.
   B. False.

4. Occupational health nurses comprise the largest group of health providers caring for the U.S. working population.
   A. True.
   B. False.

5. Which of the following is NOT included in the list of research priorities in occupational health nursing?
   A. Strategies for increasing compliance with or motivating workers to use personal protective equipment.
   B. Occupational hazards of commercial drivers.
   C. Health effects resulting from chemical exposure in the workplace.
   D. Effectiveness of primary health care delivery at the worksite.

6. According to this article, many nurse researchers at the University of Michigan have focused their research on:
   A. Fetal hazards in the workplace.
   B. Pandemic preparedness of large employers.
   C. Health effects of chemical hazard exposure.
   D. Hearing protection.

7. Two nurse researchers who have focused their research on chemical exposures include:
   A. Dr. Wendie Robbins and Dr. Linda McCauley.
   B. Dr. Jane Lipscomb and Dr. Hester Lipscomb.
   C. Dr. Mary Salazar and Dr. Patricia Strasser.
   D. Dr. Bonnie Rogers and Dr. Victoria Dickson.

8. Detailed research studies of workers’ compensation systems have demonstrated the importance of what factors to satisfaction with services?
   A. Structural factors.
   B. Process factors.
   C. Neither a nor b.
   D. Both a and b.

9. Unlike nursing in general, occupational health nursing research is not under-resourced or limited.
   A. True.
   B. False.
